

## CBM Building Ministries Project Reports

### First Baptist Church, Kiel WI

First Baptist Church of Kiel is progressing well. Insulation was finished in November, rough wiring is about 75% complete, the heating system is about 50% done, and we've begun hanging some of the drywall. We have heat on in the building making it comfortable to work. The interior framing is done except for the platform. We hope to have the project completed by mid-summer.

The atmosphere on the project is good. The church folks continue to be actively involved in the construction as well as providing meals for the builders. Church-crew relations are good and the builders are involved in church ministries. Crew members are Dennis & Peggy Robinson and Jeremy & Jodi Smith and Brandon and Ethan.

Respectfully submitted,  
Keith Fitch
